International Student Program Overview

Saint James School offers a comprehensive International Student Program developed to meet the unique needs of international students and families. Components of the program include:

- **International Student Application and Enrollment Process:** Developed to meet the needs of international families.
- **English Proficiency Screening:** On-campus **W-APT** English proficiency screening is used to assess language needs and better serve international students for whom English is not their primary language (English Language Learners.) Applicants applying for an F1 Visa will be required to take **TOEFL iBT** in place of the **W-APT**. **A minimum TOEFL iBT® score of 94 or a minimum TOEFL Junior Standard Test® score of 800 is required for F1 applicants prior to admission.**
- **International Parent Orientation:** Through an orientation held in the fall, international parents have an opportunity to meet division level principals, counselors, the athletic director, and the ESL tutor— and are provided with vital information about each division, Saint James School sports, and ESL tutoring at the school.
- **Tutoring Programs:** International students who are English Language Learners meet weekly during the school day with the ESL tutor in small, age-appropriate groups. Weekly tutoring is provided at all levels, before or after school, giving students an opportunity to work with their classroom teachers in any areas where they may have questions or need extra instruction.
- **International Report Card Option:** Based on English Proficiency test results, international students may receive an International Report Card in order to better accommodate their needs. This report card has been developed as part of our International Student Program to be beneficial for students as they transition to an English speaking school. Please note that high school students do not receive credit for classes taken under the international grading system.
- **21st Century Technology:** Use of technology is embedded in classrooms and instruction at Saint James School from grades Pre-K3 through twelve as appropriate. Saint James students and teachers have access to programs such as Google Translate which can be beneficial to English Language Learners.

International Student College Acceptances

Often international students are only located in the Montgomery community with their families on a temporary basis. Due to this factor and others, including age, many do not seek admission to a college or university in the United States while enrolled at Saint James School. Other international students opt to return to their home countries to complete the next level of their education. However, the college preparatory curriculum and instruction provided by Saint James School thoroughly prepares all students to seek admission into colleges and universities in the United States.
